Post

- Sample copy: How many pollinators can you name? On August 19 and 20, residents across Georgia and South Carolina will be counting all of the pollinators that they can find in their environment for the Great Georgia Pollinator Census. Learn more about all of the different types of pollinators and how you can join in the count: <https://ggapc.org/>
- **Remember** to put the link in your account bio (not the post itself), so it's clickable. Otherwise, viewers won't be able to access the link you shared.
